

Technical data sheet

High-Illuminance Visual Inspection Lamp

PT-C1 provides adjustable LED illumination for visual inspection of pharmaceutical solutions. A separate digital illuminance meter supports setting and checking the required lighting level.

Key features

- Independent lighting adjustment
- Separate digital illuminance readout
- Three 20 W LED tubes

Technical Information

Illuminance range	100-15,000 lx
Power consumption	60 W
Lamp configuration	3 × 20 W LED
Dimensions	703 × 340 × 513 mm
Weight	16 kg

Standard Configuration

Inspection unit with three LED tubes, digital illuminance meter and lighting regulator.

Applications

Manual visual inspection of solutions under a specified illuminance. Confirm container format, observation conditions and the applicable inspection method.

Selection / Ordering Information

Confirm sample format, required method, accessories, power supply and destination-specific configuration in the quotation. Published operating functions do not establish certification or regulatory compliance.

Review the configuration with PRECETTA before ordering.
