

Adjustable Heating Mantle Series

Adjustable heating mantles for 500 mL or 1000 mL flasks. The 450 °C maximum is a surface temperature, not a guaranteed sample temperature.

Technical Information

Flask capacity	500 / 1000 mL
Heating power	300 / 350 W
Maximum surface temperature	450 °C
Electrical supply	200-240 V
Heating element	NiCr
Housing	coated cold-rolled steel
Operation	continuous
Dimensions	220 × 165 / 285 × 210 mm
Packaging dimensions	230 × 230 × 230 / 300 × 300 × 270 mm
Net weight	2.1 / 3.5 kg
Gross weight	2.5 / 4.2 kg

Standard Configuration

The quotation must identify the selected instrument configuration and supplied accessories. Where several specifications are listed, they describe separate versions in the same order; they do not describe one combined configuration.

Optional Configuration

Optional equipment and consumables are supplied only when itemized in the quotation. Confirm dimensions, compatibility, electrical supply and the required configuration before ordering.

Selection and ordering

Include the PRECETTA model, selected specification, sample or application, quantity and destination in your inquiry. Use the complete PDF to compare variants and configuration details.

Technical Information

Paired values follow the 500 mL / 1000 mL order. The photographed flask illustrates use; glassware inclusion is not stated. The maximum surface temperature must not be interpreted as sample-temperature control accuracy.
