

Reciprocating Water Bath Shaker

Temperature-controlled reciprocating shaking for laboratory samples and cultures. Select the vessel arrangement to match the 410 × 310 mm tray.

Technical Information

Temperature range	ambient-100 °C
Temperature accuracy	±1 °C
Shaking speed	start-280 rpm
Stroke	20 mm
Tray dimensions	410 × 310 mm
Dimensions	690 × 479 × 440 mm
Electrical supply	220 V AC ±10%; 50 Hz ±2%
Ambient temperature	0-40 °C
Ambient humidity	<85% RH

Standard Configuration

The quotation must identify the selected instrument configuration and supplied accessories. Where several specifications are listed, they describe separate versions in the same order; they do not describe one combined configuration.

Optional Configuration

Optional equipment and consumables are supplied only when itemized in the quotation. Confirm dimensions, compatibility, electrical supply and the required configuration before ordering.

Selection and ordering

Include the PRECETTA model, selected specification, sample or application, quantity and destination in your inquiry. Use the complete PDF to compare variants and configuration details.

Technical Information

Stainless steel spring clamps and an LED temperature controller are specified. Select vessels to fit the tray.
